Hiring Manager
Wipro Limited

I am writing to express my interest in the Software Developer position at Wipro Limited. As a passionate and skilled developer with hands-on experience in Python, Django, ReactJS, SQL, and full-stack web development, I am eager to contribute my technical expertise and creativity to Wipro's innovative projects.

I have successfully built several real-world projects, including a Food Cart Website, OTT Content Management System, and a Bank Management System, utilizing technologies such as HTML, CSS, JavaScript, React, Python, and MySQL. These experiences have strengthened my understanding of both front-end and back-end development, user authentication systems, database management, and responsive designs.

I am confident that my strong problem-solving ability, passion for coding, and eagerness to learn new technologies will make me a valuable addition to your team. I would welcome the opportunity to discuss how my skills can contribute to Wipro's continued success.

Thank you for your attention. I look forward to the opportunity to speak further.

Sincerely,

Ezhilkumaran.R
